

Index to names in Lewis Townsend Stevens The history of Cape May County, New Jersey

From the published preface: Since its publication in 1897, Lewis Townsend Stevens's *The History of Cape May County, New Jersey* has been the standard reference work for anyone doing historical or genealogical research in Cape May County.

Stevens was a life-long resident of the county, and while his book may suffer from some of the shortcomings common to early local histories, it is far more accurate than most commercial histories of that period. Now...Robert P. Baker's complete name index will afford the researcher full and immediate access to the Stevens work. While the format of the index is standard, a few comments are appropriate. Every proper name in the book has been indexed. The most common spelling of the surname is listed first, followed by any variant spellings used. An asterisk indicates that the name appears more than once on the cited page. A married woman whose maiden name is given is indexed three ways: by her maiden name, by her married name with her maiden name in parentheses, and by her husband's name. The Stevens book is widely available at booksellers that specialize in genealogical and historical works.
