

The Heroes of the Exile

It is often supposed that Marx was essentially a heavy, humourless man and that if his works contain humour it is the expression only of a ponderous, Germanic predilection for sarcasm without true wit or feeling. His talent for polemic is then seen as springing from an almost obsessive compulsion to win, to be in the right, to beat down all opposition. That is to say, his scorn, often couched in scatological imagery, is held to be violent and authoritarian, and rooted in an emotionally impoverished psyche. Of course, it is thought permissible for him to inveigh against the evils of the capitalist system. It is when, as here, his heaviest cannons are summoned up to demolish unimportant, perhaps mistaken but often very sincere fellow revolutionaries, that his irony is called in question. This view of Marx is perhaps more often felt than stated, more often stated than reasoned. I feel that it is based on a misunderstanding, often wilful, on the part of his detractors.
